Effective date: 12/4/2019

Preamble:

Mechanism of feedback collection and its analysis is essentially required to improve all aspects of quality assurance. It plays an important role in improvement of quality enhancement, evaluation and revision of curriculum, teaching – learning procedures, infrastructure and learning resources. Feedback from stake holders like students, teachers, employers, alumni and professionals over curricula and syllabi allows to the Vidyapeeth to evaluate problems faced by them. This mechanism of feedback collection, analysis provides opportunity for the conduct of revision for improvement in quality measures and allows assurance for sustenance for excellence for all time. Hence Higher education in Health Science Universities must have SOP and follow it; which prepared and received periodically on the basis of feedback stakeholders.

Overview of feedback process:

- To improve in quality measures and assurance for sustenance for its excellence; Health Science Institution must follow standard operating procedure [SOP] to use inputs from stakeholders.
- The process of revision and redesign of curricula is based on recent developments and feedback from the stakeholders.

Responsibilities: The Head of the College/Institution /Centre shall be responsible for the implementation of this SOP [Mechanism/processes]

The institution / college shall ensure the feedback and its analysis from the following stakeholders
