# **Vice Chancellor's Desk**

It is my profound pleasure in presenting to you the Eleventh Annual Report of the Dr. D. Y. Patil Vidyapeeth, Pune (DPU) for the year 2014-2015. The present report covers administrative, academic, and co-curricular activities of the University and its constituent colleges/Institutions from 1<sup>st</sup> June 2014 to 31<sup>st</sup> May 2015.

We have often heard that Education makes a man. In today's fast-paced world, where everything is changing at a rapid pace, it is important that change be brought in the education system also. We at Dr. D. Y. Patil Vidyapeeth, Pune, believe that instead of being localized, the education should be globalized. Global education is a viewpoint that has risen from the fact that modern people live and interact in an increasingly globalised world. It not only provides an opportunity but also enables the students to reflect and share their point of view and role within a global, inter connected society. Global education is something that opens people's eyes and minds to the realities of the globalised world and awakens them to bring about a world of greater justice, equity, and Human Rights for all.

To achieve this purpose, we provide a global platform to our students, where collaboration with international counterparts is done along with interactions with internationally acclaimed guests so that the students passing out from the University have a global vision to their knowledge.

Emerging trends in technical and professional education call for value addition, which means that students must acquire something more than what is provided in the curriculum. There is need to enhance their communication skills, to develop professional ethics in them and to help them learn and develop human values and concern for humanity. The constituent colleges/institutions of the University have dedicated mentors and state-of-the-art infrastructure with well-stocked libraries and well equipped laboratories. The programmes being offered by the university are developed in consultation with experts from respective fields. The University encourages its teachers and students to undertake innovative and relevant research to spread value-added knowledge.

In recognition to our effort to enhance the quality ambience, National Assessment and Accreditation Council (NAAC) has re-accredited DPU with a CGPA of 3.62 on a four point scale at 'A' Grade during the year under report.

I wish you all a successful year filled with achievements, professional fulfillment, and growth as we rise to meet new challenges and opportunities for our University.

**Dr. P. N. Razdan**  
**Vice Chancellor**

## **Conferences, Seminars, Workshops organized at DPU:**

At DPU we encourage and support students to come up with their own initiatives and implement them and work towards solving real issues related to their careers and social responsibilities with experienced mentors thus giving them life changing experiences. Accordingly various institutes of DPU have been engaged in organizing seminars / conferences / workshops / invited lectures / refresher courses etc. with financial support from the university or in collaboration with other funding agencies/organization. We believe in combining technology and education as it is a great blend, once used together in a right direction for the better tomorrow and to make students ready for future in this competitive world. By way of such events, our opinions are put forth and shared with others in the same field and weighed against criticism. Some of the events organized are as follows;
