From the Chancellor's Desk

Dr. P. D. Patil

An important objective of the Vidyapeeth is to establish an extensive global knowledge network in order to facilitate the attaining of excellence in its teaching and research programmes. In the case of higher education, internationalization is manifested in many ways including student and faculty mobility, institutional collaboration in developing of curricula, teaching and research and the delivery of educational programmes across national borders.

It was accepted that internationalization did offer some benefits in the form of increased access to advanced programmes, addition of an international dimension to curricula and improvement in the quality of education through of example and competition.

The higher education needs to be viewed in global perspective. There is a need for global facilitation of higher education. It involves a serious rethinking towards restructuring of higher education to render supreme importance to quality driven innovative, realistic and result oriented teaching-learning practices and research of global standards. There should be greater flexibility in the policy framework to attract international faculty and students. Collaborative researches with international partners will play a major role in strengthening our position on global landscape. Our Universities will have to adopt international outlook and support greater participation of faculty and students in international exchange programmes and other academic events.

This in spite of the oft-quoted Vedic exhortation, '**Vasudhaiva Kutumbakan**' – 'the whole world is one family'. The educated class is more receptive to change, but even in their case there is a need to explain the rationale behind internationalization.

Research is an essential component of a higher education system to ensure it remains vibrant and is quick to respond to and anticipate changes arising in the contextual conditions. One of the input parameters to ascertain progress in research is the quantum of spending on research and development activities. Another important parameter to measure research is the enrolment and award of Ph.D.'s. The number of Ph.D.' awarded in India has doubled over a period of time.

From the **Vice Chancellor's Desk**

It is my profound pleasure in presenting to you the Eleventh Annual Report of the Dr. D. Y. Patil Vidyapeeth, Pune (DPU) for the year 2015-2016. The present report covers administrative, academic, and co-curricular activities of the University and its constituent colleges/Institutions from 1st June 2015 to 31st May 2016.

We have often heard that Education makes a man. In today's fast-paced world, where everything is changing at a rapid pace, it is important that change be brought in the education system also. We at Dr. D. Y. Patil Vidyapeeth, Pune, believe that instead of being localized, the education should be globalized. Global education is a viewpoint that has risen from the fact that modern people live and interact in an increasingly globalised world. It not only provides an opportunity but also enables the students to reflect and share their point of view and role within a global, inter connected society. Global education is something that opens people's eyes and minds to the realities of the globalised world and awakens them to bring about a world of greater justice, equity, and Human Rights for all.

To achieve this purpose, we provide a global platform to our students, where collaboration with international counterparts is done along with interactions with internationally acclaimed guests so that the students passing out from the University have a global vision to their knowledge.

Emerging trends in technical and professional education call for value addition, which means that students must acquire something more than what is provided in the curriculum. There is need to enhance their communication skills, to develop professional ethics in them and to help them learn and develop human values and concern for humanity. The constituent colleges/institutions of the University have dedicated mentors and state-of-the-art infrastructure with well-stocked libraries and well equipped laboratories. The programmes being offered by the university are developed in consultation with experts from respective fields. The University encourages its teachers and students to undertake innovative and relevant research to spread value-added knowledge.

In recognition to our effort to enhance the quality ambience, National Assessment and Accreditation Council (NAAC) has re-accredited DPU with a CGPA of 3.62 on a four point scale at 'A' Grade during the year under report.

I wish you all a successful year filled with achievements, professional fulfillment, and growth as we rise to meet new challenges and opportunities for our University.

Dr. P. N. Razdan
Vice Chancellor

Vidyapeeth at a Glance

“Dnyanadheenam JagatSarvam” The world is ultimately ruled by knowledge, This is the mantra that formulates the crest of Dr. D. Y. Patil Vidyapeeth. True to India’s heritage of Gurukul that disseminate all round yet focused knowledge to the young minds, Dr. D. Y. Patil Vidyapeeth popularly known as DPU serves to reinforced its commitment to promote and foster an ethical, efficient and dynamic learning environment with the help of ultra modern learning facilities and teaching approach.

Beyond DPU’s campus at Pimpri, Pune and elsewhere, lies a whole world of DPU global opportunities. DPU offers global experiences to both, the students and faculty to forge new ideas, advance the questions we ask about the world and create solutions for the problems that beset us all. At DPU, students and faculty alike broaden the scope of vision and knowledge through research and initiative based higher learning strongly inspired by the goal of being a knowledge centre that generates and supports exceptional levels of opportunity and initiative.

Our graduates of today have been drilled and tested in this rigorous system and we are glad to present them to you. Not only are these graduates endowed with specialized knowledge in their respective fields, they have also acquired necessary skills for living successfully as citizens and performing well in their chosen world of work. In a way, they have been trained as citizens Intellectuals to think locally and act responsibly at globally.

Dr. D. Y. Patil Vidyapeeth is an innovative, progressive and responsive Vidyapeeth committed to the belief that high-quality inspirational teachin and applied research can transform individuals, organizations and communities.

We intend to identify clear priourties in relation to the student experience, development of the Academic Portfolio, our research base and the efficiency of our operations. This plan may be refreshed at regular intervals so that we could achieve greater focus in our priorites and set out a clear statement of our ambition. It will also allow us to reflect on changes in the external environment.

Our vision for 2025 is to be established as one of the top 100 Universities across the world, known for the quality of our teaching and learning, with a particular commitment to health related studies. Our research strength will be concentrated in specific subject areas, but will be world class. By 2025 we will be known for the quality and range of our partnerships with profession,

business industry and government. This vision will be achieved by working towards the aims and objectives set out within the corporate plan.

We pride ourselves on making a difference – to our students, our staff and to the society we work with. Our research alongside our sought after graduates contributes to the economic and social development of both our region and the country as a whole.

Our teaching is first-rate and is supported by our world-class applied research. Our students are a diverse group and benefit from a tailored approach that helps them to get the most from their studies. We offer top quality teaching-learning facilities and the opportunity to learn flexibly in a way that best suits their needs.

Our facilities are state-of-the-art and we have invested heavily in new technology to ensure that our technological capability matches the cutting-edge approach of our teaching. Within a short span, we have come to be recognized as a Centre of Excellence for Teaching and Learning as well as employability.

The Vidyapeeth provides high quality education in the Faculties of Medicine, Dentistry, Allied Medical Sciences, Nursing, Biotechnology and Bioinformatics, Management and Distance Learning through eight institutions. In each programme, the Vidyapeeth ensures that it provides high quality education, pursuit of knowledge and impetus to creation of new ideas.

A Resource and Information Centre – Library

The Dr. D. Y. Patil Medical College Learning Resource Centre (LRC) is rapidly building up to be one of the leading professional research libraries. All bibliographic details of books, journals, and CD-ROM databases are accessible through the campus network. The library has vast number of printed documents, and it has established contacts with other organizations for exchange of the Institute's publications and inter-library loan arrangements.

The library is having 50,000 sq.ft. area. There are four reading rooms, two for U. G. students one for faculty & one for P. G. Students with centralized A.C. There are three stack rooms for shelving the reference books, textbooks and bound volumes. There is a spacious journal section, Audio visual room and e-library having 50 nodes.

There is OPAC system for searching books and separate arrangement for newly arrived books. The News paper section for light reading and cafeteria especially for students. For drinking water arrangement of two coolers is done. The facility of lift and wheel chair is available for handicapped students.

Library is having collection of text & reference books, with latest editions. The subscription of National & International journals is renewed yearly along with e-journals. The bound volumes, CDs & Thesis are available to users for reference. The library has prepared a database of books & periodicals in different subjects. The house keeping activities like Acquisition, Serial Control, Cataloguing, OPAC have been automated by using "DPU Campus ERP Library Management Software".

Library as Learning Resource

The University Libraries and computing services work hand in hand in acquiring and maintaining hardware and software resources for end users. Support for multiple platforms is a necessity. Libraries will not have the necessary resources to cope by themselves with changes that will affect the whole academic community. Libraries whose sole purpose is to organise the acquisition and circulation of scientific journals access the most recent papers from their

workstations. Indexing, Archiving and retrieving will remain but can become a global task of a Central Library .

General purpose of libraries possibly decentralised will offer books, CD-ROMS, workstations, workspace and guidance to less specialised users. Because of the multidisciplinary nature of current research they will remain useful to researchers as well as to students. The number books and journals published continues to grow. The collections of scientific journals, the other sectors of libraries will continues to grow at current rate. The library is the good place for providing study facilities and technologies to its students and faculties. Its staff is trained to help students and faculty while preserving precious resources.

The new role of libraries in the learning process will require programmes professional development for the staff and training for the users. The library buildings are moving forward a more vibrant and welcoming atmosphere using natural light and quality materials with flexibility for future growth.

The libraries are the intellectual heart and soul of the colleges and universities. Our libraries provide eloquent testimony of our commitment to serious study, the encouragement of diversity and the free exchange of ideas and a research environment. Strong digital libraries requiring participate collectively in support of research agendas are also must in this new environment.

You may have seen that the library is embarking on an exciting renovation of the new high technology with shifting in New high tech. hospital building in a spacious place for staking books, journal magazines with digital library system with wi fi facility and comfortable seating facility The update is focused on redesigning the library space students, faculty and research scholars. The library is equipped with necessary educational aids.

Research

In today's world of speedier dissemination of knowledge, our students and faculty are a step ahead in sharing their opinions, research findings and ideas with the rest of the world through publications in various media. It is commendable that the number of publications in the form of research papers, write ups, reviews has increased steadily owing to the highly scientific and competitive attitude of the faculty and proactive encouragement by the management through various incentives. A total of more than 100 research articles have been published in indexed journals, which are included in different data bases viz., Scopus, Web of Science, Pubmed and Google Scholar, apart from the published abstracts.

The Vidyapeeth continues to receive funds from various external funding agencies including ICMR, DBT, DST, WHO and DRDO. From DST, the vidyapeeth has received funds of about Rs. One crore under various research project during the year. In addition, a large number of students from the Medical and Dental Colleges are being funded by ICMR under ICMR-STs grants.

Unless our opinions are put forth and shared with others in the same field and weighed against criticism, they cannot be accepted as evaluated opinions. Dr. D.Y. Patil Vidyapeeth, Pune seeks every opportunity to organise seminars, workshops, CME's, symposia on various topics. The vidyapeeth organises various state level, National level and International conferences, seminars and workshops. The Vidyapeeth can boast of the commendable performance of its faculty members particularly for their quality research output, which is demonstrated by nearly 2184 publications (International 991 + National 1193) since last 5 years in various peer reviewed national and international journals and large number of these publications are in the Scopus database. There has been a significant rise of h-index. The impact factor of publications, during the year ranges upto 45.12.

We provide our faculty the academic freedom, time and resources to pursue their research at the highest levels of productivity for which, DPU has sanctioned a sum of Rs. 2.05 crores as Intramural Research Grants. In addition, university has received a grant of Rs. 2.15 Crores from various national and international funding agencies like Department of Science & Technology (DST), India, Swedish International Development Cooperation Agency (SIDA), Sweden, and International Team for Implantology (ITI), Switzerland for new and ongoing projects. Total number of 445 research projects have been completed and 131 are ongoing in last three years.

Intellectual Property Right Policy –

The Intellectual Property Rights Policy Document of the Vidyapeeth has been approved by the Board of Management.

One Indian patent each has been published from Dental College and Biotechnology Institute and three national and one international patent have been filed from Biotechnology institute.

Extra-Curricular Activities

Students have access to quality sports facilities in all the College with a Sports Hall & Gym and an outdoor Sports faculties in the campus. Events are organized by the Colleges under guidance of Director, Sports and Cultural Activities and his office by organizing inter collegiate sports & cultural competitions. Major Activities being undertaken

- In today's fast changing and high end technology education, this vidyapeeth respond most faster to enforce relevant changes in the curriculum and have them implemented. Thus raising the standard of overall education. Application oriented and value addition programmes beneficial to the students are undertaken.
- In addition to this the Vidyapeeth continues to receive research grants from various external funding agencies like DST, DBT, CSIR, ICMR, SIDA, ITI, Johns Hopkins University, Harvard Medical School, Indo-Tunisia, etc. more than 10 crores.

Development Plans of the Vidyapeeth

- To establish centres of excellence in Medical, Dental and Biotechnology Institutes.
- To bring other allied health sciences faculties under its ambit.
- To start superspeciality programmes in various medical branches.
- To operationalize modular OTs, ICUs, Wards for higher level of service. Automation and computerization of CCL.
- To enhance the number of MoUs and linkages for enhancement of research work.
- To encourage research teams to undertake research in identified thrust areas.
- To enhance ICT enabled teaching-learning and usage of smart boards, ERP, telemedicine, video-conference/ webinars; online lecturing resources and e-resources.
- To set benchmarks for institutional growth, opt for accreditation by NABL and NABH and other international agencies for hospital facilities and services.
- To enhance the number of multi-speciality health camps to reach the unreached and serve the unserved.

Thrust Areas of the Vidyapeeth

- The thrust areas of the Dr. D. Y. Patil Vidyapeeth are mainly health care related courses such as Medicine, Dentistry, Physiotherapy, Nursing, Optometry, and allied integrated healthcare teaching, learning and research between modern medicines with alternative medicine.
- Development of education and Research in Yoga and Naturopathy
- Biotechnology & Bioinformatics and Global Management
- Innovation in Teaching & Learning and Research
- Bioethics

DPU realizes the importance of planning and its methodical implementation to achieve the desired and cherished goals as well to move towards excellence. In order to plan for the future, there is a need to understand the growth and development of DPU till date. Hence an attempt has been made to draft the vision Document – 2025

Phase-Wise Approach

TAILOR-MADE TO ACCOMPLISHMENTS

The real work of the vision document committee begins once the Vision 2025 is declared. Goals, Objectives, Mission and Vision are like a campaign for championship. Every Goal scored / achieved brings us closer to winning a match, which is completing an Objective. Every Objective achieved takes us to the next round of semi-finals, which is the Mission. Winning semi-finals is what takes us close to entering the final stage of Mission. Conquering the finals is what accomplishes the dream of championship, for which the whole team has worked so long, so hard. This is what is accomplishing the Vision. The only difference between the championship and the Vision is that for the later, most matches are played with yourself and not with any external force. This is the reason that a transparent, honest and meticulous plan of action is put in place.

This Action Plan must be designed to the specific needs of the University in order to be effective because standardised solutions tend to have a low probability of success. A phased approach brings maximum efficacy to the Action Plan and benefit to the institutes that they serve. It allows time in the initial phases to gather crucial, first-hand information, overcome resistance to change and leads to a well defined and successful conclusion at the end.

A phased approach will:

- Help to overcome resistance to change
- Allow for lessons learned in early phases to be incorporated in systems installed in later phases
- Establish a solid foundation of available task-level data prior to rolling-up academic enterprise-level information
- Allow the necessary time (in the initial phases) to gather first-hand information about task-on-hand characteristics, personnel and cultural nuances so that the delivered solution can be tailored appropriately.

1. INITIATION PHASE

Throughout the initiation phase, DPU will use pilot projects to build process momentum, overcome natural resistance to change and gain first-hand knowledge of every institute. The goal of this phase is to successfully mobilise every institute, remediate any current at-risk projects and set the stage for the next two initiation phases. During this phase, the task management methodology will be introduced and training will be conducted wherever found necessary, but only for those individuals who will be specifically associated with pilot project teams.

Deliverables Expected

- Initial communication(s) to Vision Committee and assistance in the identification of pilot projects.
- Project management methodology and training for identified pilot team members.
- Project plans and formal monitoring processes in place for all identified pilot projects.

- Alibrary of project "templates" for use during the initiation phases.
- Standardisation of project-level report formats.
- Finalised requirements and a plan for the project-level initiation phase.

2. TASK-LEVEL INITIATION PHASE

The second phase will utilise information gathered from pilot projects in the initiation phase to roll-out structured planning and control processes for all remaining projects as well as to formally establish the Development Management Office. This phase can include formal guidelines for project planning / control and a web-based activity update. Training will also be imparted to all concerned in the Institutes and the University during the project-level installation phase. By the conclusion of this phase, the focal point of *every* task on hand and the respective Executive Body will be in-place, all team members will have been trained and the Vision Committee will be ready to begin transitioning from their role of supporting project team requirements to supporting the Executive Body members.

Deliverables Expected:

- Network-based, structured project plans and formal monitoring process for all targeted projects
- Rollout of training to all project leaders and team members.
- Implementation of the initial task completion structure.
- Finalised requirements and a plan for the academic enterprise-level implementation phase.

3. ACADEMIC ENTERPRISE-LEVEL IMPLEMENTATION PHASE

During the academic enterprise-level implementation phase, tools are assigned and applied, for example, performance metrics through a management committee presentation to gain summary-level visibility to project status and project scheduling based on approved resources and task priority listing. These tools are focused on managing an institute's entire portfolio of tasks and new projects. They aim to

- (1) provide management with timely and accurate information about the status of the all the projects being undertaken by the institution and
- (2) support policy decision-making that impacts the successful completion of projects, such as changes to staffing, funding, project prioritisation and workload.

During the academic enterprise-level implementation phase, the Executive staff will have already begun to assume some of the day-to-day responsibilities for developing and maintaining ongoing project plans. By the end of this phase, all responsibility for developing and updating individual project plans shall *have* been transitioned from the Action Team to the Executive Body.

Deliverables Expected

- Implementation ofthe academic enterprise-level implementation structure.
- Turnover of the day-to-day responsibility for developing and maintaining individual project plans to Executive Body.
- Finalised requirements and a plan forthe maintenance phase.

Mega Event organized by the Vidyapeeth

OUR POINT OF PRIDE 89th AKHIL BHARATIYA MARATHI SAHITYA SAMMELAN

The feather in the cap for the success of DPU was the 89th Akhil Bharatiya Marathi Sahitya Sammelan (All India Annual Marathi Literary Meet) which was hosted by DPU from 15th to 18th January, 2016. This event will truly go down to the history not only of DPU but also of the great state of Maharashtra as a grand success story. On an average 1,50,000 discerning people from India and abroad visited the venue every day. A gigantic exhibition encompassing 400 book stalls truly representing the rich and vast culture of reading and literary excellence of the people, recorded sales of books worth Rs. 5.50 crores in four days. Speeches and lectures, group discussions, panel discussions, poetry reading sessions were thronged by astute readers in thousands. The Sammelan was truly a Maha-Kumbh Mela of all Marathi literature lovers.

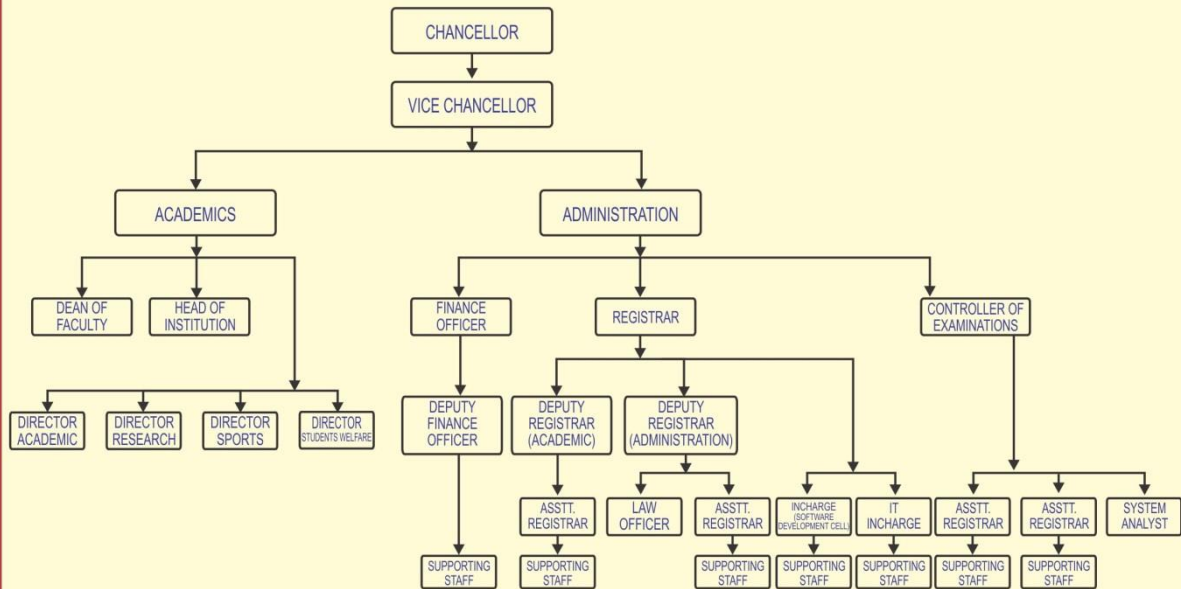

Eminent luminaries, such as Mr. Devendra Fadanavis - Hon'ble Chief Minister of Maharashtra, Mr. Nitin Gadkar - Hon'ble Union Minister of Transport & Shipping, Mr. Vinod Tawade - Hon'ble Minister of Education and Cultural Affairs, Government of Maharashtra, Mr. Sharad Pawar - Former Union Minister, Mr. Gulzar, Mr. Chetan Bhagar, Mr. Javed Akhtar, Dr. Raghunath Mashelkar, Ms. Asha Bhosale, Mr. Sushil Kumar Shinde, Dr. Vijay Bhatkar and other dignitaries etc. attended the Sammelan. Gyanpeeth Award Winners were Padmavibhushan Sitakant Mahapatra, Padmashri Satya Vrat Shastri, Padmashri Rehman Rahi, as well as, Padmashri Pratibha Ray also felicitated in the Sammelan. Renowned Marathi Author Dr. Shripal Sabnis President the Sammelan.

Establishment of Chair in Marathi at the Vidyapeeth.

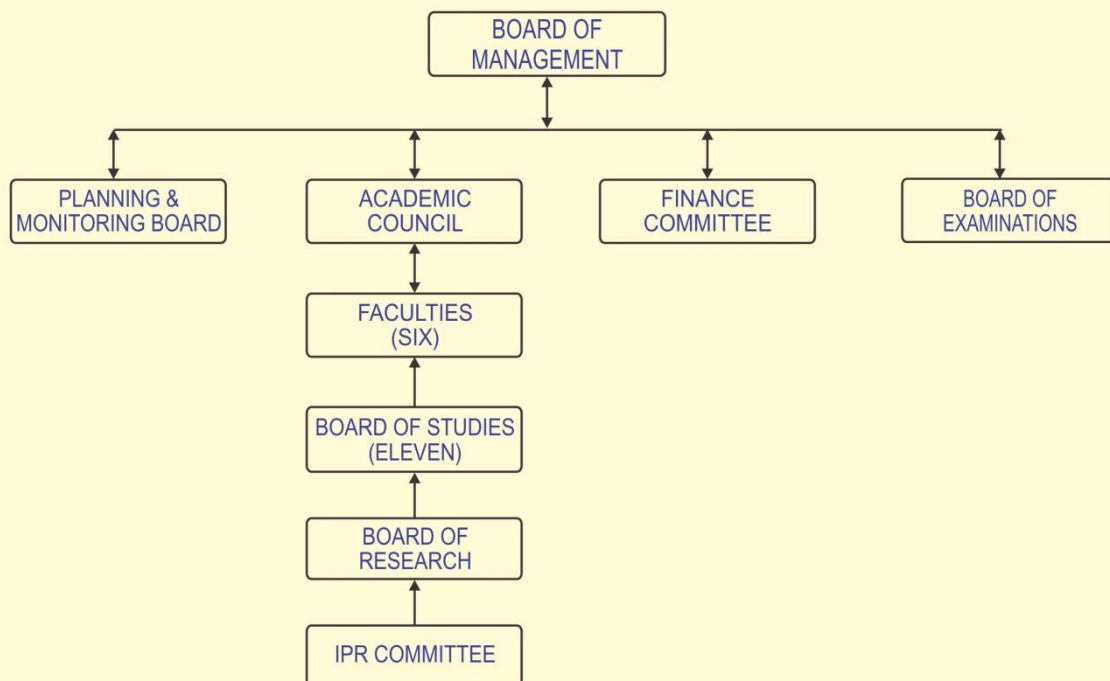

The "Chair in Marathi" was established in the Dr. D. Y. Patil Vidyapeeth, Pune. DPU has granted a sum of Rs. 15.00 lacs to three eminent personalities for promotion and propagation of Marathi language and literature in the field of education. The entire contribution collected towards the rent of book stalls and the delegate registration charges were donated with additional amount making a total of Rs. 1.00 crore to NAAM foundation for helping the families of farmers in the draught prone area, who have committed suicide.

DPU Unit of UNESCO Chair in Bioethics:

Dr. D. Y. Patil Vidyapeeth (DPU) formulated ‘**DPU Unit of UNESCO Chair in Bioethics**’ on **18th May 2015**, under guidance of its visionary leadership, Hon’ble President Dr. P. D. Patil. Zealous and acquiescent **Hon’ble Vice-Chancellor Dr. P. N. Razdan’s** initiative was realized by ardent **Registrar Dr. A. N. Suryakar** with fervid and receptive enterprise of Professor Dr. Russell D’Souza. A team of dynamic and enthusiastic faculty members with keen interest in application of bioethics in their respective professional domain was selected as steering committee of DPU Bioethics Unit. The Unit was formally inaugurated on **30th May 2015** by **Professor Dr. Russell D’Souza**, Head, Asia Pacific Bioethics Program for Education Science and Technology, UNESCO Chair in Bioethics Haifa.

Activities:

1. Since its inception DPU Unit of Bioethics has been very actively involved in promoting and supporting development of Bioethics Curriculum not only for its constituent Institutes but also for other Institutes of the Country. It has been involved in imparting training to faculty of Institutes from all over the India, so that they can implement and incorporate bioethical principals in their curriculum as perceived by **UNESCO Chair in Bioethics Haifa**. In this process a 4 day “**3T Bioethics Training Program for Medical Teachers of Medical Education Programs**” was held at Dr. D. Y. Patil Vidyapeeth, Pune from **3rd to 6th August 2015**, with kind support of **Professor Dr. Russell D’Souza**, Head, Asia Pacific Bioethics Program for Education Science and Technology, UNESCO Chair in Bioethics Haifa. Around 70 medical teachers from various Institutes in India participated and were benefitted by the program. The program was conducted by 15 International and National training faculty members.
2. **Dean, Dr. (Mrs.) P. Vatsalawamy** and **Dr. Praveen Arora, Head, DPU Unit of UNESCO Chair in Bioethics** attended **11th World Conference of UNESCO Chair in Bioethics, Haifa** which was held at **Naples, Italy** from **18th to 22nd October 2015**.

Dr. (Mrs.) P. Vatsalawamy also presented a talk on “**Medical Ethics in Pre-Clinical Subjects: Current Scenario**”.

3. **Dr. D. Y. Patil Dental College** and **Dr. D. Y. Patil College of Nursing** incorporated Bioethics Curriculum in their Undergraduate course.
4. **Dr. Praveen Arora, Head, DPU Unit** was selected as **Head, World Bioethics Day Committee** formulated by **Hon’ble Chair Prof. Amnon Carmi, Head, UNESCO Chair in Bioethics, Haifa** to plan, disseminate and coordinate the celebration of **First World Bioethics Day on 19th October 2016** all across the Globe.
5. DPU Unit was actively involved in the planning, formulating, and disseminating the **Common Program** for the **World Bioethics Day 2016** to be celebrated across the World on 19th October 2016.
6. Students of **Dr. D. Y. Patil Medical College**, participated and won First Prize (Certificates and Rs. 10000/- cash) in **First National Level Inter-Medical Collegiate Bioethics Skit Competition** organized by **South India Unit of International Network of UNESCO Chair in Bioethics** in association with **Father Muller Medical College, Mangalore** and held at **Father Muller Medical College, Mangalore** on **17th January 2016**.
7. **Dr. D. Y. Patil College of Biotechnology and Bioinformatics** organized its Bioethics Awareness Program (**Biotechnology and Bioethics: Introduction**) for its Faculty members and Students on **5th March 2016**.
8. Unit has **inaugurated its Students’ wing on 16th March 2016** with students from all constituent institutions and will actively undertake many Students’ activities.
9. Unit has undertaken **one day Bioethics Workshop** at **Bharti Vidyapeeth Deemed University Medical College and Hospital, Sangli** on **19th March 2016**. Five faculty members of the Unit were invited as speakers in the above said program.
10. Unit has also actively contributed in the **formulation of Statutes** to be followed by all the Students Wings in India.
11. **3T plus ETTC** program for training of teaching faculty members of all constituent colleges under its umbrella from **4th to 6th April 2016**.
12. Inauguration of **DPU National Coordination Centre for Students’ Wings** of the **UNESCO Chair in Bioethics, Haifa** on **4th April 2016**.
13. **Dr. P. Vatsalawamy, Dean, DYPMC** and **Dr. Praveen Arora** attended **ETTC Bioethics Workshop** of **UNESCO Chair in Bioethics, Haifa** held at **SRM Medical College, Chennai** from **11-14th April 2016**.
