The library has a total collection of 70278 books, 25686 reference books, 80 ancient books and 16 manuscripts from universally reputed publishers.

The ancient books include books that are of vintage publication year, special editions, first editions, out of print books, original manuscripts and books related to traditional Indian medical systems. The ancient and traditional books useful for the students and faculty members are made available by providing important links on the library portal of DPU. The search for procuring knowledge resources for enrichment of the library is continuous and on-going. In addition to this every department of the constituent units has its own discipline specific library resources.

DPU has ensured best library resources at every constitute unit. Each department has its own departmental library. Libraries are automated using DPU- Enterprise Resource Planning (ERP) as ILMS to facilitate speedy access of documents, journals and other operations of library.

Data of the library is digitalized based on relevant library software. OPAC (Online Public Access Catalog) facility is available for data search based on individual password by the user anytime, anywhere or through the systems at respective libraries. The library transactions have been computerized (bar-coding). All the libraries subscribe to both print and e-journals of repute. They also subscribe to standard databases that include EBSCO HOST, SCOPUS, J-GATE, KNOWLEDGE HUB and ELSIEVER / CLINICALKEY / FLEX. The databases facilitate search for title, subject, author, publisher and keywords. All libraries of DPU and sister institutions are also connected by DPU-ERP software thus enabling students of DPU to access the books of other disciplines like Engineering, Pharmacy, Law etc.

The Medical and Dental Colleges publish peer-reviewed journals which are included in the UGC-CARE list Group 1 (UGC-CARE ID:101002752 and 101026423) and also indexed in Directory of Open Access Journals (DOAJ).

Every constitute unit has its own Library Committee. This committee is renewed and reconstituted at regular intervals. It meets at least twice in a year and makes recommendations regarding new purchases, library organization, facilities and so on.

Each library has a spacious hall, dedicated collection and display section, reading rooms and IT zone / e-library / computerized library sections. Each library has also ensured the facilities - Individual Reading Carrels, Lounge Area for Browsing and Relaxed Reading, IT Zone for accessing e-resources.

**Biometric attendance system:** Entry and exit for all users from the library register their attendance in the library through biometric attendance system. It documents the number of visitors and the time both being incorporated into Enterprise Resource Planning (ERP). Log-in report can be generated and tracked.

Working hours of the library for the Medical and Dental colleges ranges from 15 to 17 hours on working days / holidays / vacations and 24 hours during examination days. The libraries of other constituent units remain open for 9 to 12 hours on working days.

The library arranges training and orientation programmes for staff and students on OPAC, e-library access, e-browsing, searching internet and other free or paid databases.

Average annual expenditure for purchase of books and journals is 247.52 Lakh during the last five years. The libraries have separate annual budgets for their enhancement of the resources.

### **IT Infrastructure and Services:**

The DPU has state-of-the-art Data Centre with separate IT and Software Development Cell (SDC) units. IT and SDC are managed separately by respective Heads and supported by 40 well trained staff. Data Centre provides comprehensive technical IT support including software development, procurement and maintenance of hardware and liaising with software providers. Wi-Fi facility is provided throughout the campus with optic fibre network and Internet broadband connectivity through 1000 Mbps 1:1 lease line of Tata Communications Ltd. Further 1 GBPS is through NKN, BSNL-150 Mbps through P2P connectivity from Tata; 1-10 GBPS ring shape OFC from DPU Data centre to the Institutes is made available and well appreciated use of the facilities are going on in the campus.

The DPU has about 1669 computers of which 1071 have been utilized exclusively for academic purpose by the students and the faculty members and the remaining are used for administrative work.

- **Establishment of AV studio for preparation of e-content:**

Dr. D. Y. Patil Vidyapeeth has its own e-content development facility for learning innovations. This caters to the needs of students in providing access to the digital contents. The video recording studio is available to the faculty to create and disseminate digital contents such as high-end audio and video, high profile lectures and live broadcasts. Studio and on-location video shoots, editing, postproduction, video transcoding, podcast production and archiving are available.

- **Lecture Capturing System (LCS):**

DPU makes use of Lecture Capturing System (LCS) where all classes are recorded in real time and made available on the Vidyapeeth online platform. This is the best methodology for conducting a systematic review. It adds value to courses – as more and more students are demanding the flexibility and control that recorded lectures provide over their learning. It works especially well in subject areas where students benefit from repeated viewing of content.

## RESEARCH

Universities can grow successfully only when teaching and research get together symbiotically as they have no independent existence. Furthermore, there is a long-term implication of quality of research on national development, since research is the means of knowledge creation. We have created a conducive environment to undertake collaborative research projects combining teaching-learning and research, to nurture originality, creativity and novelty. I feel proud to state here that this year DPU published more than 800 papers in International and National journals of repute, which are indexed in Scopus, Pub Med, Web of Science and **UGC approved journals**. These cover a wide range of areas from medical, dental, biotechnology & bioinformatics, physiotherapy, nursing, ayurved, homoeopathy and management. There has been a significant rise in h- index from 45 to 51, indicating the translational value and higher citations received by individual publications. A total number of 7,854 citations was received in the year 2020. The highest impact factor among the publications during the year under report was 60.392 (The Lancet), 42.778 (Nature), 28.755 (Lancet Neurology). Publishing papers is only one part of the research, however, filing patents and writing books, chapters, editing books, forms yet another aspect. I am also proud to state that this year DPU has filed 24 patents and 16 Copyrights.

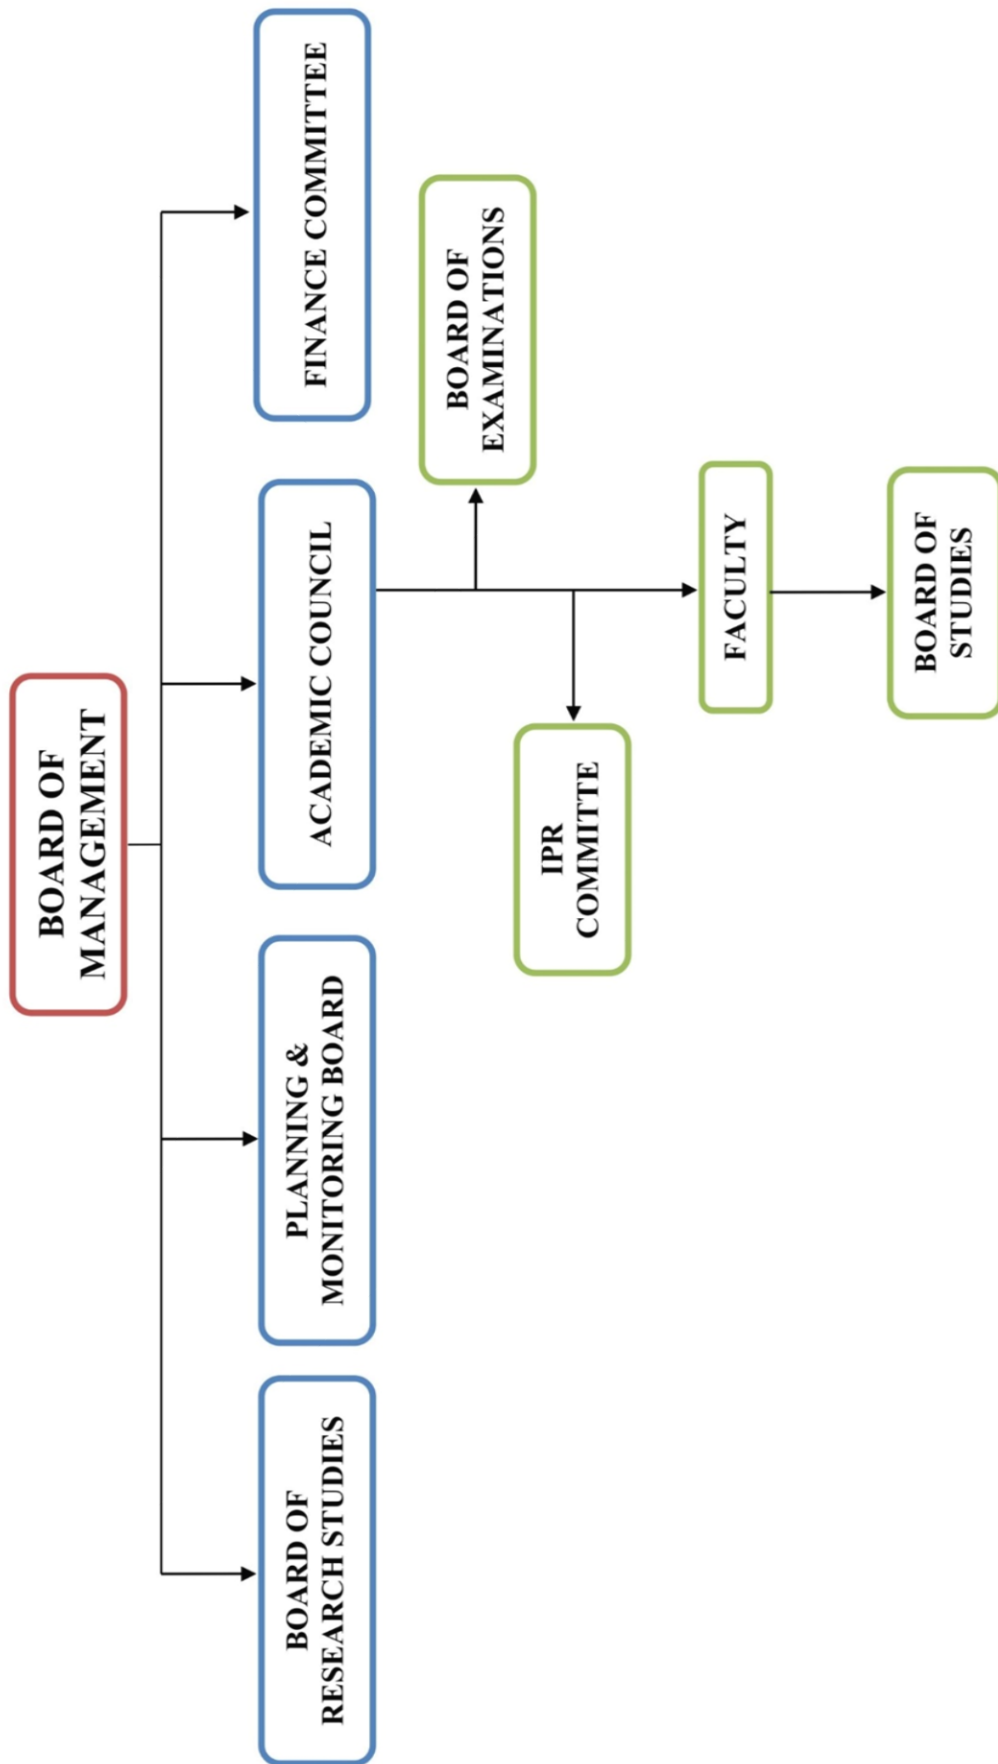

A Research is impossible without funding. DPU has always been supporting research activities and has provided seed money of more than 73 Lakhs during the year. In addition, this year university has received a total extramural grant of more than 2 Crores from Department of Biotechnology (DBT), Department of Science & Technology (DST), CSIR-IGIB, ICMR and foreign agencies like the National Institute of Health, USA and Harvard Medical School Centre for Global Health Delivery Dubai.

The Vidyapeeth has set a benchmark, offering a conducive learning environment and research culture among the students and the faculty.
