## From the Chancellor's Desk

In the words of Swami Vivekananda, “education is a harmonious combination of head, heart and hands”. Keeping these objectives in mind, Dr. D. Y. Patil Vidyapeeth, Pune, offers a range of professional programmes for the all round development of youth. The Vidyapeeth is not a mechanical collector and distributor of knowledge; instead, it offers intellectual hospitality and wealth of mind that helps in cultivating the power of thought and imagination. The University offers a wide array of technical and professional courses. A cursory glance at this annual report would show you the excellent infrastructure and high academic standards maintained by the University and its constituent colleges /institutions.

I have travelled all over the globe, visited a number of institutions and universities and I am happy to inform you that at the Dr. D. Y. Patil Vidyapeeth, Pune, we have adopted excellent educational practices and teaching methodologies which are comparable to the best available in the world. All the constituent colleges/institutions have dedicated faculty and state-of-the-art infrastructure with well-stocked libraries and well-equipped laboratories. Faculty members are devoted to the promotion of quality education through imparting of quality instruction and through dedicated research.

As a result, the University has achieved recognition in both teaching-learning and research. We are marching ahead confidently. The Annual Report 2011-2012 gives us immense pleasure as we ponder over our accomplishments. We look forward to our success index staying high in the future also.

Chancellor

**Dr. P. N. Razdan**  
Vice Chancellor

## From the Vice Chancellor's Desk

It gives me immense pleasure in presenting to you the Ninth Annual Report of the Dr. D. Y. Patil Vidyapeeth, Pune for the year 2011-2012. The present report covers administrative, academic, and co-curricular activities of the Vidyapeeth and its constituent colleges/Institutions from 1<sup>st</sup> June 2011 to 31<sup>st</sup> May 2012.

We have often heard that Education makes a man. In today's fast-paced world, where everything is changing at a rapid pace, it is important that change be brought in the education system also. We at Dr. D. Y. Patil Vidyapeeth, Pune, believe that instead of being localized, the education should be globalized. Global education is a viewpoint that has risen from the fact that modern people live and interact in an increasingly globalised world. It not only provides an opportunity but also enables the students to reflect and share their point of view and role within a global, interconnected society. Global education is something that opens people's eyes and minds to the realities of the globalised world and awakens them to bring about a world of greater justice, equity, and Human Rights for all.

To achieve this purpose, we provide a global platform to our students, where collaboration with international counterparts is done along with interactions with internationally acclaimed guests so that the students passing out from the University have a global vision to their knowledge.

Emerging trends in technical and professional education call for value addition, which means that students must acquire something more than what is provided in the curriculum. There is need to enhance their communication skills, to develop professional ethics in them and to help them learn and develop human values and concern for humanity. The constituent colleges/institutions of the University have dedicated mentors and state-of-the-art infrastructure with well-stocked libraries and well equipped laboratories. The programmes being offered by the university are developed in consultation with experts from respective fields. The University encourages its teachers and students to undertake innovative and relevant research to spread value-added knowledge.

I wish you all a successful year filled with achievements, professional fulfillment, and growth as we rise to meet new challenges and opportunities for our University.

**Dr. P. N. Razdan**  
Vice Chancellor

## A Resource and Information Centre – Library

Books are lighthouses erected in the great sea of time, said an American essayist. Man's quest for knowledge has led to the creation and accumulation of tremendous amount of information. This quest for knowledge knows no bounds and is never satisfied. A library caters to the knowledge-thirsty minds of thousands of people.

For an educational organization, a library functions like the brain. The richer the library, richer is the academic content of teaching-learning process. In keeping with this, the University has developed an excellent central library for the systematic collection, organization, preservation and dissemination of knowledge and information. It has a total floor area of 29638 sq. ft. with provisions for separate reading rooms for staff members and spacious reading rooms for students. The total collection of the libraries is more than **36,712 books and 2,273 journals**. The libraries have been provided with Wi-Fi Internet facilities and students and faculty have open access to this facility.

In addition to this, every constituent institution/college has its independent library, abounding in latest and updated books and journals of the respective stream of knowledge.

There are 787 online Journals in addition to 225 regular journals, which also include some of reputed journals. Oxford Journal of Brain, British Medical Bulletin, American Journal of respiratory and critical care medicine, British Journal of sports medicine, Journal of Clinical Microbiology etc. Students & Staff Members are always taking the benefit of these journals in their regular studies. Dr. D. Y. Patil Vidyapeeth is one of in the few universities who have subscribed full access of scopus journals.

## Knowledge Gaining/Sharing

Knowledge can be updated through knowledge sharing at the right platform. To provide this platform the University has organized 56 events that include 24 Workshops, 14 Seminars, and 18 Conferences, where more than 2577 knowledge aspirants have participated. It has also encouraged faculty members and students to attend 136 Workshops, 101 Seminars and 175 Conferences organized by other organizations.

The conference also witnessed an active participation from the US delegates in the session and discussions with their counter parts from India.

### **Discussion on various aspects during the Indo-US Education Conclave 2011:**

- Discussions on education policy issues (with respect to credits, recognition of medical degrees and others) to promote co-operation between US and Indian educational institutions.
- How to accelerate US-India cooperation in the fields of education from a State to State perspective.
- Discussions around partnerships between educational institutions through joint degrees, joint research, faculty exchange, student exchange programme and other areas of bilateral co-operation.
- Quality assurance and accreditation

The Conclave focused on addressing issues that will help improve the quality of education, and also bring a holistic approach to educational infrastructure in the country. The Summit brought together prominent and leading personalities from the field of education, politics and business - all of whom are committed to promoting the highest standards of education, value systems and governance in the education sector. The three day event was an opportunity for leaders in education to interact, debate and find comprehensive solutions to the issues facing the education sectors in India and the US. Through
