During the course, students learnt about basics in research methodology, how to form a research design, various components of an original research article, review article and a book chapter; simple techniques to improve writing clarity. During the course, Dr. Viniti explained the students about scientific ethics and plagiarism. She also informed about scientific databases and the process of peer-review journal publication.

Students were given time-bound activities such as finding the impact factor of a scientific journal, preparation of graphical abstract on the given topic. The session was greatly informative for all the students along with a few interactive group activities related to scientific writing skills.
